Subject: Sewer issue in Tega Cay, SC

Greetings all!

I hope this finds you all doing well. I am reaching out to voice my concern over the sewer containment issue in Tega Cay. There seems to be a challenge to keep sewage from running into Lake Wylie from the treatment areas in Tega Cay.

What are the next and immediate steps we can take solve or at least begin solving this issue?

I utilize the waters of Lake Wylie with my family every day in the summer time. After being up all night with my sick 6 year old son (terrible diarrhea and stomach cramping), I am very concerned. He swam yesterday. I realize we can not jump to conclusions about where the "stomach bug" came from, but I can tell you, the sewage issue is on the list.

Thank you for your insight and action. Please reply with comments and the direction of your entity.
